

**LifeScience**  **Science of ...**

**... knowledge!**

**Biesterfeld Spezialchemie GmbH is one of the leading distributors in Europe for products requiring special support in the fields of Life Science, CASE (Coatings, Adhesives, Sealants, Elastomers), Food Ingredients and Performance Products.**

The company was founded in 1997 as a wholly-owned subsidiary of the Biesterfeld Group. As a partner of leading global suppliers the Biesterfeld Spezialchemie GmbH distributes a broad spectrum of chemical special products and food additives with about 150 employees from currently 16 European locations.

The Life Science division concentrates its competence in the fields of personal care, pharmaceuticals, household cleaning products and organic synthesis, combining classical trade activities with tailor-made services and consultancy.

Our team of highly skilled specialists offers our customers the assistance they need. The key elements of our European service

package are the development of customer-specific solutions; individual, application-related technical advice; a comprehensive product range and immediate delivery on demand from regional warehouse locations.

We see our role as a promoter of information exchange and of development in both directions: we adopt the customers' perspective to create solutions and we act as a marketing partner of the principals.

intelligence behind beauty

### **New Partner**

**Biesterfeld Spezialchemie GmbH and Dr. Straetmans GmbH finalize negotiations on distribution partnership for Eastern European countries.**

Dr. Straetmans GmbH develops and supplies functional cosmetic ingredients with a focus on cosmetic ingredients from sustainable resources, with a particularly strong portfolio of multifunctional antimicrobials for alternative preservation. According to Biesterfeld's

strong presence in the Eastern European countries the product lines Dermosoft, Dermofeel, Amylomer and Symbioquat are introduced in 14 countries at once. Poland, Czech Republic, Slovakia, Hungary, Bulgaria, Croatia and Romania are covered by sales forces from local offices. Additionally Estonia, Lithuania and Latvia will be covered from the office in Poland, the former Yugoslavian countries Slovenia, Bosnia-Herzegovina and Serbia from Croatia and Macedonia from Bulgaria.
